Maine Outdoor Solutions

If you're reading this catalog, most likely you or someone in your family has been a customer of ours one time or another. Over the winter, we've been thinking that most of our customers come to our website after searching for something specific and maybe do not know about all the other products we have. So, we thought that putting all our products into one catalog and mailing it out to you might be a good idea.

You see, since way back in 1986, our whole business has kind of been built around good ideas – recognizing them and then doing something about it. I think you'll see what I mean as you look through our catalog and read about our products. And as you do, I want you to know that our whole family has had a hand in it one way or another. Pretty much everyone who works here is family or sort of informally adopted. We've got 3 generations working together. We've got grandfathers, grandmothers, moms, dads, daughters, a son-in-law, brothers, aunts, uncles and grandkids, too. It can get complicated at times, but overall it seems to work pretty well.

We enjoy what we do here in Maine and hope you will enjoy what you see here in our catalog. *Thank you, Ken Johnson, Founder*

Phone Orders or Questions?
Call Ethan! 207-478-6426 Mon-Fri
Noon-4pm Maine Time (EDT)

If you prefer using the phone, call my grandson, Ethan. He'll answer your call in person noon to 4pm weekdays or call you right back if he's busy with another customer. He'll take good care of you!

THE ORIGINAL **PredatorPee** SINCE 1986

"In 1986 I acquired the Foggy Mountain Hunting Scent product line. I had done the marketing of Foggy Mountain for a number of years before venturing out on my own. When some of our Foggy Mountain customers started buying our fox urine to keep rabbits out of their gardens, it got my attention. The more I learned about the role of urine in the wild, the more interested I got. You could say that animal

urine is the original "wireless communication"! In their natural environments, animals use urine to mark their territory, attract a mate and identify the presence of predators like Coyotes, Foxes, Bobcats, Mountain Lions, Bears and Wolves. The predator marks its territory with urine and stalks its prey. Pest animals like coyotes, deer, rabbits, squirrels, feral cats, javelina, mice, rats etc. react to the marking scent of their predators by seeking to avoid those predators at all costs. It

is the law of the wild. In this life and death game of hide and seek, the scent of urine is often the only warning a prey has that a predator is nearby. PredatorPee® puts that

PICK YOUR PEE – PREDATOR/PREY INDEX				
COYOTE URINE	FOX URINE	WOLF	BOBCAT	MT. LION
DEER	RABBIT	COYOTES	MICE	JAVELINA
GROUNDHOG	SQUIRREL	FERALCATS/ CATS	MOLES	WILD BOAR
IGUANAS	SKUNK	FOXES	VOLES	ARMADILLO
WOODCHUCK	HARES	WEASELS	RODENTS	FERAL HOGS
RACCOON	CHIPMUNK	BEAR		FERAL PIGS
POSSUM	PUPPY TRAINING	ELK		
GOPHER		MULE DEER		
RATS		BOBCAT		
ROOF RATS		MOOSE		
NORWAY RATS		BIGHORN SHEEP		
MARMOT		CARIBOU

instinctive response to work for you so you can deal with most any animal pest problem in the most natural way possible. . When you are ready to order, just scan the QR code with your SmartPhone or go to the links listed on each page." KJ

PredatorPee® 100% Wolf

Urine is a powerful communicator to animals at the top of the food chain. Coyote, Moose, Bear, Elk & Mule Deer and Horses fear the wolf more than any other animal. That is why the scent of **WolfPee** is so

effective. When these large prey believe there is a wolf in the immediate area, they flee. By liberally marking an area with **WolfPee**, you duplicate the territorial marking habits of wolves in the wild. This illusion triggers an instinctive response in the prey. If wolves are around, these animals want to be far away!

The Original - Since 1986

CoyotePee COYOTE URINE

REAL URINE PURE FEAR

PredatorPee® 100% Coyote

Urine establishes the illusion that coyotes are nearby. This illusion is triggered by the powerful scent of pure coyote urine and all that it communicates to animals in the wild. The scent of pure Coyote Urine sends a message to Deer, Raccoon, Possum, Groundhogs and other prey, that coyotes are in the area. These prey act instinctively and immediately leave the area. One customer reported watching a doe approach the edge of her garden

until she neared the dispenser holding **CoyotePee**, *"the doe froze in her tracks then slowly backed up one step at a time and then broke into a run back to the woods."*

Stop the Seasonal Mouse Invasion! **PredatorPee® 100% Bobcat Urine** is the

solution for mouse, moles, voles and other rodents and small mammals. Use **BobcatPee** in dispensers around the perimeter of your house near any openings. Also, use our **BobcatPeeShots** under sinks and near where pipes enter the home. The Bobcat is an extremely efficient predator and its presence means big trouble for small creatures. The scent of **BobcatPee** warns the prey that bobcats are nearby and they respond immediately and clear out. It is an instinctive reaction that has been part of the law of the wild since the beginning of time.

12 oz Squeeze Bottle: \$30 16 oz Spray Bottle: \$40
16 oz YardCover Granules: \$30 8 pack PeeShot Cannisters: \$37
64 oz Growler with Sprayer: \$125

PredatorPee® 100% Fox Urine creates a scenario where Rabbits, Squirrels, Skunks, Chipmunks & other varmints fully believe that a dangerous fox is in the area. This illusion is triggered by the powerful scent of pure fox urine and all that it communicates to animals in the wild. By liberally marking an area with **FoxPee**, you duplicate the territorial marking habits of foxes in the wild. Acting on instinct, these prey will avoid the area protected by **FoxPee**.

16 oz YardCover Granules: \$25
8 pack PeeShot Cannisters: \$35 64 oz Growler with Sprayer: \$99

PredatorPee® 100% Mt. Lion Urine creates the realistic impression that Mt.

Lions or cougars are in the immediate area. For Armadillos, Javelinas, Wild Boar and other mammals native to the south and west, this spells trouble. These prey react instinctively to the perceived presence of this fierce predator.

Annoying People Loitering? Social Distancing Problems?

– **Skunk'Um!** –

“Over the years, we’ve had a lot of customer inquiries that go something like this:

“What’s the stinkiest stuff you have?”

What they were looking for was something to keep people from hanging around or loitering without having to get into a confrontation. When you think about it, it’s not really a lot different than the basic concept behind predator urine with the nose communicating to the brain that this is not a

good place to be. So, **Skunk’Um** was born and I must say, I have been surprised at how popular it has become. Of course, skunk essence is that stuff that comes out when a skunk lifts its tail. We all know how bad it smells and how long it lingers....and that is what **Skunk’Um** is. So if you’ve got a place where you don’t want anyone to hang around, spray **Skunk’Um** around the area and it’s a sure bet they’ll find another place to loiter.” KJ

Has "Free Range" for Your Chickens Become "Free Lunch" for the **Hawks?**

...Get **HawkStopper** Visual Deflection Net

"Back around 2010, customers began asking if we had anything that would work to keep hawks away from their chickens. I already knew that birds don't respond to the smell of urine because their sense of smell isn't what they use to steer clear of danger – they use their eyes. So I decided to grab a coffee with my former University of Maine zoology professor and friend from church, the late Ken Allen, and pick his brain a bit about what he knew about hawks. He told me more about the raptor's incredible eyesight and told me some stories about how fish farmers on the coast of Maine used fish netting suspended

HawkStopper
(1500 sq ft)

over the pens to deter predatory sea birds from feeding on the fish. He explained that the netting was not used as a physical barrier, but rather as a visual one. With their keen eyesight, the fish netting looked like an impenetrable barrier even though in reality it wasn't. It was from that conversation, that HawkStopper was eventually born."

FOGGY MOUNTAIN®

Since 1981

*Unique Outdoor Products
Inspired by the Work and Life
of Legendary Maine Master
Guide, Wayne A. Bosowicz,
Foggy Mountain Guide Service,
Sebec Maine*

"Foggy Mountain® outdoor products began in 1981 with some products that my good friend and legendary Maine Master Guide Wayne A. Bosowicz mixed up in the barn for his hunters. I took over the business in 1986 and our product line has expanded quite a bit over the years to include a variety of unique outdoor products that are worthy of the **Foggy Mountain®** name. We invite you to look over our product line and we think you will like what you see." KJ

Authentic Rolled Wool Maine Crusher Hats

Made InUSA

the Late Famed News Anchorman

Peter Jennings Called Us "Geniuses"

Phone conversation December 10, 2003

"Peter Jennings called today to tell us that we are "geniuses for bringing back the Crusher Hat." He said had been looking for months to find the Crusher hat and was so excited he found it on our website. He asked if it was the one that could be rolled up and put in your pocket. I told him it was and that I would be watching to see if he'd be wearing it on location somewhere, and he said "you probably will!"

"In the 70's, when I was studying Forestry at the University of Maine, one of the first things I noticed were these great wool felt hats that lots of the guys in the program were wearing. I had to have one. These hats were made of tough boiled wool felt and worked great in any weather. You could fold it up, stuff it in your back pocket and pull it out when you needed it. They kept their shape and definitely were way more than a fashion statement in the woods of Maine. This was THE HAT you wore when you went in the woods to hunt, fish or work. Many years later while looking for authentic outdoor wear to join our product line, I thought about this hat. We tracked down the original maker, and we are proud to bring back this legend of the north country. Still made in America and still a must-have piece of gear for anyone who works or plays in the great outdoors.

You'll love this hat." -KJ

FOGGY MOUNTAIN® FLAPPER

It's Got Style! It's Got Flaps!...and It's Crushable, too!

Flaps Down!

Flaps Up!

Here in Maine it's usually snowing and cold for about half the year. And because you just have to go out sometimes, it makes sense to wear a hat. We all have been told that when it's cold out, we lose most of our body heat right out the top of our heads. That may be true, but common sense would tell you that if all that heat is rising up in your body, winding it's way to the top of your head; some of it might leak out wherever there are holes. Right?

Like your ears for example. So why take any chances? Our **Maine Flapper**

from Foggy Mountain® combines all the heritage and comfort of our Crushers with ear flaps too!

Cover all those heat-losing spots in style!

The flaps tuck up inside the hat when not in use and flip down to trap the heat and warm those ears of yours!

And of course, crushable too!

Made Exclusively for Foggy Mountain â

BearGuard

The World's Best Boot Waterproofing

Made in Maine from Real Bear Fat and Beeswax

Back along when the American wilderness was really wild, a man's boots had a lot to do with his survival. Boots had to last for years and keep his feet warm and dry. For guides, trappers, woodcutters and hunters in the North Country, that meant using a recipe of bear fat and beeswax to keep those boots dry and the leather healthy. Now we're not talking about chemicals mixed up in some fancy lab by some guys who've never seen a cedar swamp. We're talking about men using what nature gave them and coming up with stuff that really worked. That's what Bear Guard is all about, wild beeswax and real bear fat - there's no more natural way to preserve, protect and soften your leather boots. That's why we revived the old recipe. After all, if it ain't broke ...don't fix it.

6oz Tin: \$17

BearGuard Tack Tub delivers 16 ounces of the world's best leather waterproofing. Perfect for saddles and all leather tack.

FOGGY MOUNTAIN

SlipLeash

Made In
Maine

1-2-3 The Easiest Leash You'll Ever Use!

1. Slip leash
thru either
handle to
create loop

2. Slip loop around neck

3. GO!

Some inventions are so simple and logical, all
you can say is:

"Why Didn't I Think of That?"
SlipLeash is one of those!

For years, I have been using the loop handle of my leash as a handy soft choker leash when taking our Goldens, Zeke and Riley, for a walk. The loop handle worked great as a choker, but it left me holding onto the metal leash clasp - which was not a good handle at all! And that is how **SlipLeash** was born - a leash with 2 loop handles and either one can be used as a the soft choker or the handle. No matter which end you grab - you always have the right end! No fussing with hard-to-handle metal clasps while trying to hook the tiny loop on the collar of an unruly dog.

So simple, I could hardly believe that no one had thought of it. But, no one had - so we applied to the U.S. Patent Office and Patent Pending status was granted" KJ
